

BIGFOOT WALL MOUNTED TOOL HOLDER

9.HOLDER

Organising the workplace can improve efficiency, save time and reduce work-related stress.

The new **Tool Holder** by RUPES has been designed and produced to tailor and optimise every workplace. It is the essential accessory to get a more organised, functional and efficient work environment. Designed to hold the tools firmly and securely, it helps in keeping them visible and handy.

It is suitable for the complete range of BigFoot polishers, including BigFoot Ibrid Nano, and RUPES pneumatic and electric sanders. Lightweight plastic made, the new tool holder can be screwed directly to masonry or metal. Thanks to its rounded corners and protected edges, it provides an extra level of protection for both the tool and the user.

The new Tool Holder is equipped with a special hook, to support electrical cords up to 9 metres long, so you can easily and safely organise your workshop.
